### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Howard Reiter on 03/21/05.

The application has been amended as follows:

- Cancel claims 1-16.
- Re-write claim 17 as follows:

Claim 17. A method of fabricating an operating lightweight firearm weapon and the relatively movable operating parts thereof, said method comprising the steps of:

selecting three coordinate axes defining said operating parts of said weapon in three dimensions;

forming thin laminations defining said operating parts, said laminations corresponding to plan views of said operating parts parallel to two of said coordinate axes taken at sequential positions along the third of said coordinate axes;

securely fastening said sequential laminations to each other to define a three-dimensional operating part wherein the thickness of said operating

part represents the cumulative thickness of each of said laminations, combined; and,  
movably coupling a plurality of said operating parts to each other for operative interaction.

2. The following is an examiner's statement of reasons for allowance: The prior art does not disclose a method of fabricating a firearm and its operating parts via laminating. The prior art only provides for the creation of a laminated stock.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
